

What is Zoom and How Does it Work?

Zoom is a video conferencing platform that can be used for video and audio-conferencing meetings. Attendees can join the meeting via webcam or video conferencing camera or by phone.

To get started, select the device that will work best for you.

Join by Phone

This option allows participants who do not have a computer or smartphone to join the meetings in audio only.

1. Call the **phone number** listed
2. Enter the **meeting ID** when prompted to join the meeting.

Join by App (Smartphone)

This option supports audio and video calls.

1. Install the Zoom app from the **App Store**.
2. Open the **Zoom app**.
3. Click on **Join a Meeting**
4. Enter the **Meeting ID** and your name, and Click on **Join**

Join from your Computer:

This option supports audio and video calls. Note that you will need to have a microphone or headset to participate. This option is the most advanced and allows you to either download software to your computer or open in a web browser.

1. Go to the **meeting link**
-or- go to <https://zoom.us/> and click on **Join a Meeting** and enter the **Meeting ID**
2. Follow prompts to download and run Zoom or launch from browser.
